

Divination

Now, for the first time, you can have a GENUINE Ifa Divination, in the original African form, from a highly trained Ifa Priest initiated, trained and certified by the Ifa Foundation of North America & The Ifa Foundation of Latin America!

The process of divination opens the channels of communication between Orunmila/Arula, and ourselves. The skilled Diviner will utilize his/her experiential connection to this energy to tap into that ocean of knowledge for those they are divining for. The energy is a three way triangulation between you, the Ifa priest and Orunmila/Arula. When serious issues of job, love, health, children, negative energy etc. must be dealt with, ONLY a personal divination with a skilled Diviner can provide the specific answers and solutions.

Divinations are offered in two forms:

1. General Reading.

This is an in-depth look at your current energy and situation. It is able to examine specific current concerns regarding health, money, relationships, negative energy and family. Specific directions to improve these areas are divined, and the Orisha necessary for accomplishing these improvements, along with the ebbo necessary, are identified, Readings are conducted by phone.

Question: How can divination be done on the telephone?

Answer: It is often difficult for individuals to understand how the process of Divination can be as accurate when done via telephone or e-mail, as it is when divining in-person for an individual.

The answer is quite simple: While individual Diviners may have limitations, Energy has no limitations. To presume that Orunmila (Arula) can only function within a small physical space is, of course, nonsense. This is simply another area where the timeless, adaptive energy of the Orisha, has been limited by the perception, vision and understanding of certain Practitioners. Thousands of years ago, with no phones, telegraph or computers, Divination was always practiced in person. As society and technology changed, Orisa energy was totally able to integrate those changes into its' matrix. Indeed, if it could not, then the conclusions reached, divining in person in today's world, could not possibly be valid. Yet, we know they are!

If Diviner's are limited by their ability to perceive this energy triangulation in any way other than having the client sitting across the mat, or table, it is their personal limitation, not the limitation of Orunmila/Arula. In Divination, as in all areas of life, there are different levels of ability, intellect and understanding. It would seem more logical and effective to have your Divination performed by someone comfortable with, knowledgeable about, and successful in, the current cultural and technological world we live in, rather than someone stuck in past.

1. Life Path and Guardian Orisha (Angel) Divination.

The Life Path reading has been performed for thousands of years in Africa on the third day of a new child's life. It is the reading that lays the foundation for your entire life. It can now be performed for adults who never had this opportunity immediately following birth.

In this reading we first examine the Path that you have selected. In Ifa, while most individuals are intent only upon identifying their primary Guardian Orisa (Angel), the Truth is that the selection of that Orisa to guide your life was specific to the path and energy you selected in the realm of Ajali Mopin at the moment of conception. Each of us has certain things we are meant to learn or accomplish during our lifetimes. This path will allow us to accomplish these most effectively. In addition, it will provide the energies necessary to allow us greater success, love, health, family and fulfillment in the rest of our experiences.

In this Life Path/Guardian Angel reading, the specific energies and their application to your everyday success as well as your emotional/spiritual success are clearly defined and explained. In addition, of course, this reading identifies the Orisa Energy you selected to help you most effectively traverse this Path successfully. Your primary Orisa comprises the overwhelming amount of energy you will use to most effectively navigate your Life Path. In this Life Path reading it is also possible to identify your Primary Guardian Ancestor, who will reside in your Ori and help you on this journey.

All Life Path Readings are done via e-mail so the individual may have a written copy of all the information to refer to in upcoming years. These readings comprise 10plus pages of information!

When placing your order for a General Telephone Reading, suggest in the comment section of the ordering form…what days and times work best for your schedule. Many people chose to do their Phone Divinations in the evenings…after work and or dinner.

You will receive an email responding to setting up an agreeable time with consideration of both schedules. In the majority of situations… your reading can be done within a 48 hour time period. IF there is an emergency…please let us know. The e-mail will provide the number to call.

Be prepared to have a quiet 30 to 45 minutes in your life so you can focus on the Reading. Taking notes is recommended….as there will be important ideas shared that you will want to keep on hand to move forward with.
